Who am I

Hi, I am Charlotte a pageant and fashion photographer based in the UK.

I have a background in fashion, art and before working as a photographer I was a model myself.

I offer destination shoots to my pageant clients where I scout the locations before hand, book the team and shoot 16 girls usually over the course 4 days. So far these trips have taken me to Paris, Rome, New York , Venice and Mallorca.

This year I did book two campaigns to shoot while on these trips and shot at runway 7 during New York Fashion Week. I would love to be working with more brands here in the UK and feel my energy and work ethic is perfect for this industry.

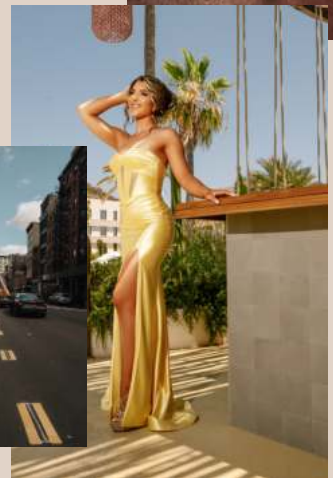

I have a studio in Leeds so am confident with both location and studio sets ups.
